# ANDRO

## The Second Annual UAV Day!

Go on a journey with experts, teachers and instructors as we explore UAS technology and the future role of today's students!

Students will learn hands-on with professionals include:

- Simulation Training
- UAV Repair and Construction
- Manual & Autonomous Flight
- Programming
- Sense & Avoid Demos
- Cyber Protection
- And More!

Teams of 5-6 students from schools across Central New York will work together to complete the day's tasks and perform in the final competition!
