

# ATTENTION EDUCATORS: NOMINATIONS NOW OPEN

5<sup>TH</sup> ANNUAL

# PROJECT FIBONACCI® STEAM LEADERSHIP CONFERENCE

SUMMER 2023  
ROME, NY

CONFERENCE THEME-  
ADAPTING TO CLIMATE  
CHANGE: SUSTAINING OUR  
PLANET, ITS OCEANS AND  
THE GLOBAL POPULATION

Since 2016, the Project Fibonacci® Foundation, a 501 (c)(3) nonprofit organization, has held a week-long summer STEAM Leadership Conference, which has been attended by over 400 high school and college students from across NYS and the country.

Each year, the conference Steering Committee—consisting of over 30 business leaders, educators, artists, and community members—develops a highly interactive curriculum for our STEAM Scholars. Additionally, a team of over 70 volunteers dedicate their time to ensure a safe, fun, and educational learning environment for the weeklong event.

Participants are exposed to in-depth STEAM content, cutting edge innovations, and hands-on workshops that provide STEAM Scholars with the confidence and skillset to reach further in their academic and professional pursuits.

The Project Fibonacci® Foundation encourages schools to nominate multiple students to attend the 2023 Project Fibonacci® STEAM Leadership Conference. Eligible students should show an interest in STEAM education, enrolled in school, and be between the ages of 14-19 in 2023.

New for 2023—STEAM Scholars may now nominate themselves to attend! Students can submit a nomination and just need a mentor to complete a simple form to be eligible for registration.

## STEAM SCHOLAR TESTIMONIALS

*“Project Fibonacci is a place for me to meet other people who are like minded, to help me focus on what fields I want to go into, or other fields just to see their journey and learn about what others did...Over the last 3 years I learned a lot from the projects, like developing new skills to adapt to challenges. My favorite part was working with my teams, brainstorming, and being immersed in how our ideas would play out.”*

*-Alexandria B., 2016-2019 STEAM Scholar*

*“As a future educator, Project Fibonacci is the very foundation that has to be laid for students going into high school or college—that STEAM is very necessary for life. It doesn't matter what major or career; students have to be able to incorporate all of these subjects together...Important to me were the other STEAM scholars, a group of some of the most amazing people I have ever met.”*

*-Muhammed T., 2016-2018 STEAM Scholar*

## FINANCIAL SUPPORT

Over 95% of past STEAM Scholars received funding toward the all-inclusive tuition. Co-Sers are a great way to financially support your students to attend.
