*Help Empower the Future Generation of Female Leaders and STEM Experts*

The Project Fibonacci Foundation, Inc. is excited to announce the second annual Women & STEAM Symposium! This symposium is designed for 10-12 graders of local school districts and will feature a panel of women business owners who have found success in their respective fields. The symposium will also provide a lunch networking opportunity and a Creating Connections career/college fair. This is an excellent opportunity for young students to learn from inspirational women in STEAM fields, education, entrepreneurship, and leadership.
